Talking It Over

THE PATH OF SUPERVISION

Though warm the weather, bright the days,
The calm professor clears the haze,
He scolds severely those who shirk,
And nods acceptance of fine work.

And when school days are over,
His fishing pole he'll find,
And hurry off to solitude
To rest his weary mind!!

STUDENT GOVERNMENT

Since the time of Ace Schumacher, the Student Senate has really been accomplishing things 1941 Strepke and his many big ideas the second student body president, Ed Schick, North Hall's able representative quite a change in personnel reasons?? patriotic and otherwise entire student body meetings once a month airing of "gripes" minutes of S. S. read DANCING??? and the much needed social reform freshman initiation just what does Student Senate do? discuss student problems divided into committees

with faculty members to work together harmoniously gives mixer in the fall Homecoming committees the Faculty-Student Council is all powerful the place where faculty shows students the more experienced viewpoint makes suggestions and sees that the good ideas are taken to the proper authority to be carried out for example the student center in Old Main the Student Senate idea, initiated in '40-'41 is really proving satisfactory Wartburg should feel proud of it!

Yes, I know you've heard it a cheery sound on cold winter nights even lovely warm spring evenings used for practice it takes enthusiasm to make an organization do this the band has plenty that's one of the reasons why every Monday and Wednesday night finds them hard at it

Prof. Heist has a great deal to do with the enthusiasm part there's no substitute for his humor everyone enjoys his interpretations of what the music says band convo. would definitely lack something without his wit

The band grows every year the sign of a good organization celebrates its fourth birthday this year concerts in convo. on Senior Day make those long practices really worth while President Ted Ritter and Secretary Ruth Poe are just the ones to keep things going

The great ambition seems impossible now to have a band tour keep up the good work and you can't miss

INSURE YOUR ... FINANCIAL INDEPENDENCE

Will the money you earn in the next few years put you any further ahead financially? Will enough of your surplus — above current expenses — go into some plan that assures you steady financial progress day after day, year after year? If you haven't such a plan, isn't it time you were starting one?

NOW

Ask our representative to suggest a plan to insure comfortable security for you in later years, based on a long-range financial program. Won't you see him soon?
